Dyslexia Public Education Information Management System (PEIMS) Coding Overview

E1530-C088 Dyslexia Indicator Code - TEC §48.009

Requires school districts and open enrollment charter schools to indicate the number of students enrolled in the district or charter school who are identified as having dyslexia or a related disorder. The indicator is reported two times each year. First, based on student snapshot (last Friday in October) and is submitted to TEA in the Fall PEIMS submission (due by the first Thursday in December). Second, based on the last day of school (or student's last day of enrollment) and is submitted to TEA in the Summer PEIMS submission (due by the third Thursday in June).

No - 0

Yes - 1

Indicate if the student is participating in special education or receiving assistance under Section 504.

E1650-C224 Dyslexia Services Code - TEC §48.103

This data is submitted to TEA in the Summer PEIMS submission (due by third Thursday June).
Note: A student identified with dyslexia or a related disorder may be coded with multiple services codes.

Services Code 00

Does not receive services for dyslexia or a related disorder

Services Code 01*

Receiving services for dyslexia or a related disorder in accordance with an individualized education program (IEP) developed under Section [29.0005](#); or a plan developed under Section 504, Rehabilitation Act 1973 (29 U.S.C. Section 794)

Services Code 02*

Receiving instruction that meets applicable dyslexia program criteria established by the State Board of Education (SBOE) provided by a person with specific training in providing that instruction. (See Chapter IV in the Dyslexia Handbook (2021) for program criteria)

Services Code 03*

Permitted, on the basis of having dyslexia or a related disorder to use modifications in the classroom or accommodations on the administration of assessments under TEC [§39.023](#)

*Students who are coded as having dyslexia and related disorders and who receive protections under Section 504 or IDEA should have written documentation that outlines the determination of Free Appropriate Public Education (FAPE). Each student's unique, appropriate education should be described in terms of aids, accommodations, and services so that the assigned indicator code is supported by documentation. While Section 504 regulations do not require a written plan, practical requirements such as documentation of evaluation sources, the impairment and substantial limitations, committee discussion and decisions, and accommodations create the necessity of putting the plan in writing. In addition, should a disagreement take place, the written document may provide clear information regarding the intent of the LEA to provide FAPE.

E1644-C222 Dyslexia Risk Code - TEC §38.003(a) Kindergarten (End of Year) and First Grade (January 31st)

This data is submitted to TEA in the Summer PEIMS submission (due by the third Thursday in June).

01

Screened and determined to be not at risk for dyslexia or related disorders

OR

02

Screened and determined to be at risk for dyslexia or related disorders

OR

03

Not screened for dyslexia or related disorders

E1732 DYSLEXIA - SCREENING - EXCEPTION REASON

When a student is not screened in Kindergarten or Grade 1 during the required screening window, code 03 is reported along with one of the 12 reasons indicating why dyslexia screening did not occur.

KEY CONCEPTS IN THE TSDS UPGRADE PROJECT

1

Combining Data Elements

2

Combining Data Elements

- Ed-Fi has a descriptor concept that TEA will now use to report student characteristics and services. **StudentCharacteristic** (E3063) is a descriptor that captures important characteristics of the student’s environment or situation. **SpecialEducationProgramService** (E3058) is a descriptor that defines the services provided by an education organization to populations of students associated with a special education program.
- To align better with Ed-Fi, TEA is also using some Ed-Fi data elements such as **Responsibility** (E3051), **LanguageInstructionProgramService** (E3034), and **CTEProgramService** (E3012) to combine multiple TEA data elements into a corresponding descriptor table.
- Ed-Fi also offers some data elements, such as **LanguageUse** (E3035) and **Language** (E3033), where TEA could use two data elements together to replace existing TEA data elements.
- Lastly, TEA created some extended data elements such as **Truancy** (E3068), **EndorsementPursuing** (E3022), and **EndorsementCompleted** (E3021) to combine multiple TEA data elements into a corresponding descriptor table.

Begin and End Dates

- To “effective date” some data elements, TEA will begin collecting the data element combined with a BeginDate and EndDate in a “set.” Some sets will have more than one data element that will be associated with the BeginDate. The BeginDate and EndDate will allow TEA to promote the correct data for snapshot purposes.
- The BeginDate will be specific to one or more data elements and will be required to be reported with the data element.
- The EndDate will only be reported when the data element becomes false. The EndDate will be the first day of non-participation in the program.

Best Practices

- In the TSDS Upgrade Project, the **first day of school** is defined as the EARLIEST instructional day for the given LEA from the CalendarDate. The first day of school is used in the promotion logic for several of the submissions that collect data for the entire school year, such as the PEIMS Summer Submission and RF Tracker.
 - Best Practice – the LEA must load the Calendar information first so TEA can determine the **first day of school**.

9

9

Zero
Descriptors

10

Zero Descriptors

- When TEA released the TSDS Upgrade Project data standards, LEAs and vendors asked why the LEA must report a data element when the student was not participating in the program captured by the data element.
- TEA removed certain zero descriptors from the descriptor tables listed on the following slides. The LEA will no longer report the data element with the zero descriptor. The data elements on the next slides will only be reported when there is a valid descriptor for the student.
- Some zero descriptors remained in tables such as EconomicDisadvantage, ADAEligibility, ArmedServicesVocAptBattery, CourseSequence, DisciplineActionLengthDifferenceReason, DyslexiaServices, InstructionalSetting, GiftedTalentedProgram, LevelOfEducation, NonCampusBasedInstruction, NSLPTYPE, ToolOrAssessmentUsed, IncidentLocation, PKProgramEvaluationType, and SpecialEducationProgramService. These zero descriptors provide important information about the student, staff, or campus.

Texas Rural Schools Spring Conference

Pursuing our vision for Texas students

At K-12 Graduation Every Child, Prepared for Success in College, a Career, or the Military

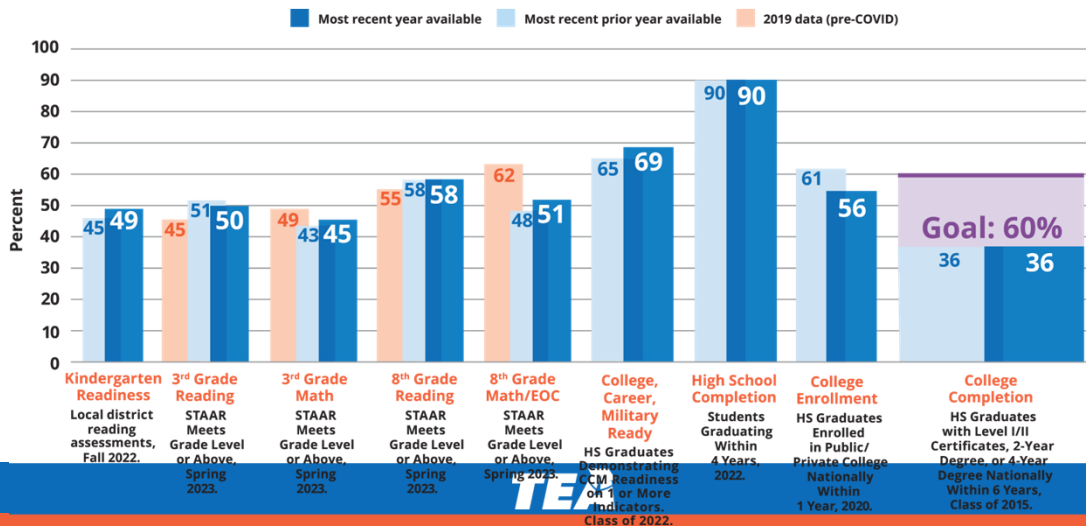

By 2030, at least **60%** of Texans will have a degree, certificate, or other postsecondary credential of value.

Post-Secondary Attainment **Goal: 60%** High school graduates have enlisted in the military, earned an industry certification, 2-year degree, or 4-yr degree from any institution nationally within 6 years of graduation.

Student Outcomes

YEAR-OVER-YEAR STUDENT OUTCOMES

Rural Pathways in Excellence Partnerships (R-PEP)

The Rural Pathways Excellence Partnership (R-PEP) designation (HB2209, 88th Legislature) aims to increase access to high-quality post-secondary pathways for rural students through an allotment and increased outcomes bonus. An R-PEP is:

Collaborative of districts
with fewer than 1,600 students and a willingness to think creatively

College and Career Pathways
open to all eligible students

Coordinating Entity
with capacity to operate pathways

Performance Agreement
outlining CE and LEA roles, responsibilities, and metrics for success

5

5

R-PEP Allotment

The Rural Pathways Excellence Partnership program (HB2209, 88th Legislature) aims to increase access to high-quality post-secondary pathways for rural students through an allotment and increased outcomes bonus.

R-PEP Allotment

R-PEP Designated Districts earn **additional ADA Allotment** for each student in a postsecondary pathway **& an Outcomes Bonus** for each student that earns a postsecondary credential of value up to 5 years after graduation.

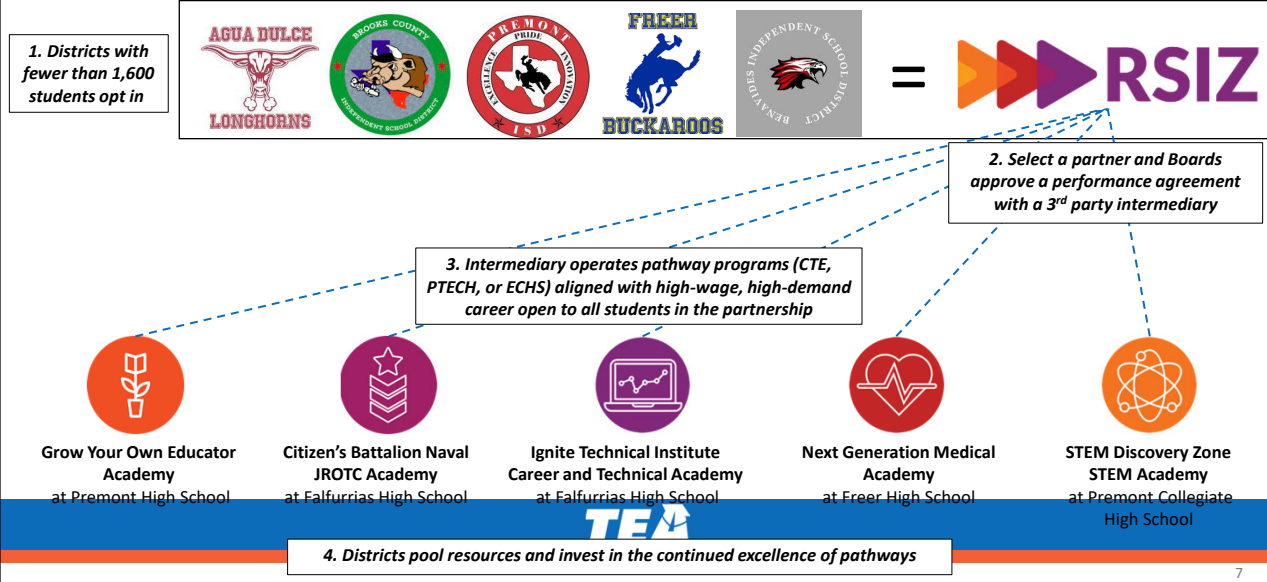

- R-PEP Allotment Example:
 - A high school student who spent 1/3 of their time participating in one of these pathways would generate on average an extra **\$2,928 per ADA** if low income, and **\$2,546 per ADA** if not.
 - CCMR Outcomes bonuses are also increased.

The average small LEA that ensured all of its students participated in an R-PEP pathway would **increase** M&O funding by **9%**

6

6

R-PEP Example: Rural Schools Innovation Zone

7

tsds

Nearly **300 participating students** across 5 districts.

The RSIZ has **tripled the percentage** of graduating students each year completing an industry-based certification since 2019.

The RSIZ has **outperformed the state and surrounding regions** (Region 1 and Region 2) in CCMR score, graduation rate, and dual credit completion.

The RSIZ has more than **quadrupled the percentage of graduating students earning college credit during high school.**

TEA

R-PEP Example: Freer ISD Student Outcomes

Background:

- Freer ISD joined the Rural Schools Innovation Zone (RSIZ) in 2019.
- Freer ISD hosts the Next Generation Medical Academy.

Impact:

- In 2023-2024, nearly 80 Freer ISD students attend an R-PEP pathway in one of the partner districts
- Dramatically increased post-secondary readiness outcomes

REGIONAL PROGRAM OF STUDY CALCULATIONS FOR CTE INDICATORS

House Bill 773 (87R) added students who successfully complete a program of study in career and technical education (CTE) to the list of indicators that can be used to calculate college, career, and military readiness (CCMR).

A local education agency (LEA) may offer any approved [statewide programs of study](#). Autocoding is used to calculate the CTE indicators for participants (code 5), explorers (non-downgraded code E), concentrators (code 6), and completers (code 7).

[Regional programs of study](#) meet a specialized industry need within a particular region(s). Therefore, regional programs of study are approved for use in regions that apply and successfully show labor market demand. **CTE indicators of students who are enrolled in regional programs of study are calculated based on their campus' address and associated region.** The regional programs of study for the 2023-2024* school year are:

- Printing and Imaging
- Retail Management
- Cosmetology and Personal Care Services
- Industrial Maintenance
- Geospatial Engineering and Land Surveying
- Aviation
- Drone
- Maritime

*Regional programs of study will be updated on the website for the 2024-25 school year.

12

REGIONAL PROGRAM OF STUDY CALCULATIONS FOR CTE INDICATORS

What does this mean for my LEA?

Independent School Districts (ISDs):

- Ensure the campus' physical address is correct in AskTED. ISD TED administrators can update their own campuses.

Charter Schools:

- Charter school administrators should request changes to the campus' physical address by submitting the [All-In-One Charter School Update Form](#) or emailing CharterAskTED@tea.texas.gov.

Why is it important to list the correct physical address of the school?

Each school's physical address will be used to link it to the region in which the school is located. Ensuring the correct physical address is listed in AskTED will facilitate the correct autocoding of CTE indicators for students who are enrolled in a regional program of study, potentially affecting CCMR.

Legislative Updates (HB 3, 88th Legislative Session):

HB 3 amends TEC §25.002(a) to include in the documents required to be transferred when a student moves from one school to a new school a copy of the child’s disciplinary record and any threat assessment involving the child’s behavior under §37.115.

TEA has developed a method in TReX to transfer five prior years of student discipline records using the PEIMS Summer discipline records. LEAs also need to send threat assessment information and current year discipline records from one LEA to a new LEA at the time of a student’s transfer. TEA has added 11 new, revised three existing and deleted one data element. TEA has also added two new code tables.

REMINDERS

- New Subsection (v5.5 January 2024)
 - 2.15.1 Safe and Supportive School
 - Transfer of Discipline Record Guidance
 - Transfer of School Behavioral Threat Assessment Guidance

2.15.1 SAFE AND SUPPORTIVE SCHOOLS

TEC §25.0286(c), requires the transfer of a child's disciplinary record and any school behavioral threat assessments when a child transfers to a new school district.

Transfer of Discipline Record Guidance

When the current LEA fulfills a request for the student record, the LEA extracts the data, including all current year Public Education Information Management System (PEIMS) reportable discipline (when applicable), from the local student information system and uploads the data into TREx.

TREx will retrieve discipline history from PEIMS using a student's Unique ID. Up to five prior years of discipline information will be attached as an Excel file to the student record in TREx. The file will contain the following discipline data for the applicable prior school year(s):

- DistrictID
- CampusEnroll
- IncidentNumber
- ActionReason
- CampusDiscAction
- ActionNumber
- ActionCode
- DateDiscAction
- ActualLengthDiscAssignment
- OfficialLengthDiscAssignment
- LengthOfOffenseBaseCode
- CampusDiscResponsibility
- BehavioralDispositionCode
- InconsistentCodeOfConductIndicator
- SafeSupportiveSchoolProgramTeamReview

If a student has no historical discipline action records, TREx will not attach a Historical Discipline file.

Note: LEAs are responsible for transmitting discipline action data for the current school year through TREx.

Transfer of School Behavioral Threat Assessments Guidance

TEC §25.002(a)(2) and TEC §25.036(c) require that any school behavioral threat assessment (SBTA) conducted, including those considered "closed," be sent to the receiving school district. When transferring SBTA records, local education agencies (LEAs) must ensure the SBTA record contains any and all materials provided to or produced by a team during a threat assessment of a student as specified in TEC §37.115(i)-1). Utilizing the attachment feature in TREx, LEAs are required to transmit all school behavioral threat assessments, not only those that resulted in disciplinary action.

For information on file naming standards for the SBTA attachments, refer to section 2.3.4 File Requirements.

REMINDERS

- HB1, Sec 25.002 (a-1) requires each district to transfer student records within **10 working days** of receipt of a request by the receiving district.

REMINDERS

- TREx Notifications and Purges are PAUSED over breaks in the school year, such as annual breaks for Winter, Spring, and Summer to allow users additional time to fulfill requests and download records.
- For Spring, retention windows and email notifications in TREx were paused on March 15, 2024, to prevent records and requests from being deleted by the system.
 - TREx will be returning to normal operations on March 29, 2024. TREx users are urged to fulfill and/or download all records on or before that date.
 - Starting on March 29, 2024, all records and requests older than 14 calendar days will be purged from the system and paused email notifications will resume their normal schedule.

35

FREQUENTLY ASKED QUESTIONS

When are the TREx Data Standards published?

The TREx Data Standards are published twice a year. In June/July, TEA publishes for the upcoming school year. In December/January TEA publishes updates for the current school year.

For example, the initial standards for the 2023-2024 school year were published in August 2023. Due to the 88th Legislative Session, a subsequent version of the standards for the 2023-2024 school year were published in September 2023. Updates for the 2023-2024 school year were published in January 2024. For the 2024-2025 school year, initial standards will be published in June/July 2024.

Additional publications are provided on an ad-hoc basis, depending on legislative changes.

New Record Transfer Requirements

During the 88th Regular Session, the Texas Legislature amended Texas Education Code (TEC), §25.002(a), and added TEC, §25.036(c), in House Bill 3, to require the transfer of a child’s disciplinary record and any threat assessments when a child transfers to a new school district. The Texas Education Agency (TEA) has updated the Student Attendance Accounting Handbook (SAAH) and the Texas Records Exchange (TReX) Data Standards to include this new requirement.

TReX Discipline Record

The requirement to transfer a student’s discipline record supersedes the previous requirement to transfer only unexpired discipline actions. The discipline record is defined as a student’s cumulative record of formal disciplinary actions reported to the Public Education Information Management System (PEIMS) from the date that the student was first enrolled in a public school and that the local education agency (LEA) has retained in accordance with the records retention policy. To assist LEAs with the requirement to transfer discipline records, TEA has added one element to the TReX Discipline Action complex type, and nine existing PEIMS data elements with two corresponding code tables. These new data elements will facilitate transmitting current year PEIMS discipline actions for the student to the receiving school. When a student transfers into a new LEA, the discipline record received is considered part of the cumulative record.

Beginning December 18, 2023, the TReX system will interface with PEIMS and retrieve up to five years of PEIMS discipline data reported for a student and provide the information in a downloadable attachment. This discipline data will be retrieved from PEIMS utilizing the student’s Unique ID when fulfilling TReX requests.

LEAs should develop a procedure to collect, review, and store discipline records received when a student transfers into an LEA.

TReX Behavioral Threat Assessment Indicator and Record Transfer

To assist LEAs with the requirement to transfer all student behavior threat assessments, TEA has added a new data element to the TReX Student Record that will indicate a behavioral threat assessment (BTA) exists for a student. When transferring BTA records, LEAs must ensure the BTA record contains any and all materials provided to or produced by a team during a threat assessment of a student as specified in TEC §37.115(j-1). BTA records must be

converted to a compatible file format and attached to the TREx record as an additional attachment.

BTA records are required to be retained until the student's 24th birthday, and all BTAs for the student are subject to the transfer requirement even if the BTA was conducted by a previous LEA. LEAs should develop a procedure to ensure the behavior threat assessment indicator is populated within their local source systems (e.g., student information systems) when a Safe and Supportive School Program (SSSP) team initiates a BTA for a student. If a student transfers before the assessment has been completed, the sending LEA must ensure all records associated with the assessment are transmitted so the assessment may be completed by the receiving LEA.

LEAs should develop a procedure to collect, review, and store BTA records that are received when a student transfers into the LEA. This procedure should include the population of the BTA indicator in their local source system, a review of records by the SSSP team that serves the campus, and the process for storing the transferred BTA records.

Resources

TEA has developed a [guidance video](#) to assist LEA PEIMS coordinators, campus registrars, and campus TREx clerks with transferring discipline and BTA records in the TREx system.

The Texas School Safety Center, in collaboration with TEA, has developed a [Guidance Checklist](#) to assist school districts in complying with the requirement to transfer BTA records.

TREx Acceptable Formats for BTA Records: • PDF; • MS Word (.doc) files; • MS Excel (.xls) files; and • Data file (such as ASCII data file) in another application.

| SUBJECT: | Texas First Early High School Completion Program |
| CATEGORY: | Graduation and Scholarship Program |
| NEXT STEPS: | Share with high school counselors, advisors, and administrators |

Senate Bill 1888, 87th Texas Legislature, 2021, establishes the Texas First Early High School Completion Program to allow public high school students who demonstrate early readiness for college to graduate early from high school and earn a scholarship for one or two semesters at certain Texas universities.

Information regarding the Texas First Early High School Completion Program may be accessed at [Texas First Early High School Completion Program page](#).

Action Required

Upon a student's initial enrollment in public high school in a grade level below grade 12 in a school system, the school system must provide to the student and the student's parent or guardian information regarding:

- (1) the requirements to earn a high school diploma under the program; and
- (2) the Texas First Scholarship Program.

This [Texas First Diploma flyer](#) can be used by school systems for this purpose.

Data Collection

Beginning with the 2023-2024 school year, school systems will be required to report in TSDS PEIMS information regarding students who graduate early under this program. Graduates from the 2022-2023 school year who meet the requirements for the Texas First Early High School Completion Program will be reported in the 2023-2024 PEIMS Fall submission. The data collection will be shared with the Texas Higher Education Coordinating Board for verification and award of scholarships.

REPORT UPDATES

- The ECDS PK report **ECD0-000-003 Early Childhood Assessment With PK Sources** will receive several updates:
 - The readiness columns will be updated to display a dagger if the 'KG Assessments Entered' is 0 or null.
 - A new column will be added to the total row of the report that displays 'Total KG Student Assessments Entered'.
 - Two new section headers will be added that display 'PK Enrollment Information' and 'KG Readiness Assessment Information'.

13

REPORT UPDATES

- The ECDS PK report **ECD0-000-003 Early Childhood Assessment With PK Sources** updates, **continued**:
 - The '% Students KG Match' column is calculated by dividing the **number of KG students matched in the current year** by the number of PK students from the **prior year** and multiply times 100. Matching is done by Unique-ID comparison.
 - For example, **8 KG students (current year) / 10 PK students (prior year) X 100 = 80% Students KG Match.**
 - When the 'KG Assessments Entered' dagger is displayed, the following text will be shown:
 - 'There must be KG Assessments entered in the current school year in order to display KG readiness information'.

14

REPORT UPDATES

- The ECDS PK report **ECD0-000-006 Early Childhood PK Data Submission** is being updated to correct an issue where the Total Students by Teacher summary box was being split across two pages.

15

REMINDERS

- Prekindergarten Assessment Data:
 - LEAs will need to obtain their BOY/EOY PK assessment data directly from their ECDS pre-K assessment vendor and load into the ODS, as they have done in prior years.
 - LEAs must load their Student Parent Extension xml from their SIS before the LEA loads their Prekindergarten Assessment Metadata and Student Assessment Data into the ODS.
 - LEAs are encouraged to work as soon as possible with their ECDS PK assessment vendors to resolve any issues with their BOY/EOY assessment data related to missing or incorrect student UIDs.

16

REMINDERS

- Prekindergarten Reports:
 - LEAs should run all their ECDS PK reports and verify the student, staff, course/section, High Quality PK Data and assessment information and counts before completing their ECDS PK submission:
 - ECD0-000-006 Early Childhood PK Data Submission
 - ECD0-000-007 Early Childhood PK Completion

2

Data validation via SPPI Clarification

- After the State Performance Plan Indicator collection period each year, the Texas Education Agency (TEA) offers local education agencies (LEAs) who reported less than 100% compliance the opportunity to submit updated data for Compliance Indicators 11a, 11b, 12, and 13.
- LEAs have the opportunity to correct **data entry errors** and/or to document correction of any potential noncompliance found in the State's database for these indicators prior to the State issuing a finding of noncompliance.
- LEA participation in the clarification period is voluntary.

3

State Performance Indicators (SPPI) 11, 12 & 13

- **SPPI 11: Child Find- Timely Evaluation (11a) and Eligibility Determination (11b)**

- **SPPI 13: Secondary Transition**
 - Data collection period: July 1, 2023-June 30, 2024
 - Submission due: August 9, 2024
 - TEAL SPP Application

4

Data Validation Process Steps

- LEAs who choose to participate in the SPPI Clarification process must submit the following for review:
 - Procedures related to the indicator identified noncompliant
 - Training Evidence of procedures
 - Self-Monitoring Plan to prevent additional noncompliance
 - SPPI Verification Workbook & Attestation of Compliance showing child-specific corrections
 - School Calendar(s)

5

Data Validation Process Steps

- TEA Monitoring, Review and Support team review these items to determine if
 - All child-specific noncompliance has been corrected AND
 - All systemic noncompliance has been corrected
- If the LEA can demonstrate correction of both child-specific and systemic noncompliance then the LEA is considered post-clarification compliant and their SPPI 11a, SPPI 11b, 12 and/or 13 SPPI compliance rating will reflect Compliant/ 100%
- If correction of child-specific and/or systemic noncompliance is not demonstrated, the LEA will remain noncompliant and engage in the CAP process.

- Consent signed 2/1/2024. Official attendance taking period is 2nd period. On 2/5 the student is not present and is marked absent. Student is still not present when the evaluator comes to pull the student for their evaluation. Evaluator marks the student as absent in the electronic IEP system/evaluation log. Student returns in 4th period with a doctor's note. Absence in TSDS is changed to present. Student is absent again 2/20 and 3/8 which are captured by TSDS as absences. The evaluator shows 3 absences and extends the evaluation due date by the number of absences. The LEA submits their SPPI 11 data and is found to be noncompliant for this student. Why?
- The evaluator and TSDS have competing data as the evaluator shows 3 absences for each time the student was not present at the official attendance taking period, but TSDS only shows 2 as the student returned to school in the first instance. Both are accurate however, not all systems capture the attendance taking absences when submitting the data for TSDS Child Find submissions.
- Solution:** LEAs should review TSDS data routinely to ensure absences as defined in §89.1011 (h) are accurately captured to avoid data entry errors and inaccurate noncompliance findings

Calendar issues

- FIIE compliance (11a) relies on the accurate calculation of school days.
- School closures and changes to instructional days impact this calculation.
- LEAs present updated calendars showing school closures and other calendar revisions during the clarification process.
- Solution:** Ensure the correct calendar is uploaded in the TSDS Child Find submission in July.

Human Errors

- Since the TSDS Child Find collection pulls from 3rd party systems there is a possibility of data entry errors.
- Most LEAs hand enter data into an electronic IEP data system that uploads into the LEA's SIS and from there the upload to TSDS is generated.
- **Solution:** LEAs should build a routine of checking their TSDS Child Find data reports to ensure all data is accurate and compliance checks are correct

13

Transfer Students §89.1011 (f)

§89.1011 (f) states:

- If a student was in the process of being evaluated for special education eligibility by a school district and enrolls in another school district before the previous school district completed the full individual and initial evaluation, the new school district must coordinate with the previous school district as necessary and as expeditiously as possible to ensure a prompt completion of the evaluation in accordance with 34 CFR, §300.301(d)(2) and (e) and §300.304(c)(5). The timelines in subsections (c) and (e) of this section do not apply in such a situation if:
 - (1) the new school district is making sufficient progress to ensure a prompt completion of the evaluation; and
 - (2) the parent and the new school district agree to a specific time when the evaluation will be completed
- LEAs provide the code 09 (other) to explain the delay for the student's FIEE. During the clarification process, the LEA provides evidence that the student transferred during the evaluation process.

Solution: LEAs should use the delay reason codes 06 or 07 for transfer students when the elements of §89.1011 (f) are met by the LEA.

15

SUBMISSION UPDATES

- The following code value has been **removed** as an acceptable ELIGIBILITY-DELAY-REASON for SPPI-11 Eligibility Determination **compliance calculations**:
 - **05** – *Parent Delay (Detailed Records Maintained by LEA Regarding a Parent of a Child who Repeatedly Fails or Refuses to Produce the Child for the Evaluation or Eligibility Determination)*

- ELIGIBILITY-DELAY-REASON code **'05'** can still be reported but will **no longer** automatically mark the student as **compliant** for their eligibility determination.

16

SUBMISSION UPDATES

- LEAs that reported an ELIGIBILITY-DELAY-REASON code '05' for any of their students prior to **March 23, 2024**, must **re-promote** their Child Find data prior to marking the submission as 'Complete'.
 - TEA will be reaching out to LEAs who have reported this value and have not re-promoted their data.
- This change **does not affect** the **SPPI-11 initial evaluation** compliance, **nor** the compliance calculated for **SPPI-12**. Code '05' is still considered an acceptable delay reason for those compliance calculations.
 - Additionally, ELIGIBILITY-DELAY-REASON code '**07**' is still considered an acceptable delay reason for SPPI-11 Eligibility Determination compliance calculations.

BUSINESS RULE UPDATES

- The following validation rules will be updated in the Core application on **March 22, 2024**, to account for the SPPI-11 Eligibility Determination calculation change:
 - **41163-0089** – If SPPI-11 Eligibility Determination Compliance (calculated value) is "Y", then ELIGIBILITY-DELAY-REASON must be either not reported, ~~"05"~~, or "07".
 - **41163-0090** – If SPPI-11 Eligibility Determination Compliance (calculated value) is "N", then ELIGIBILITY-DELAY-REASON must be reported and must not be ~~"05"~~ or "07".
- These changes will be updated in TEDS for the **2024-2025** school year.

REMINDERS

- 2023-2024 Data Element Changes
 - **ORIGINAL-ECI-SERVICES-DATE (E1737)**
 - Replaced EFFECTIVE-DATE and EARLY-CHILDHOOD-INTERV-IND-CODE.
 - Only reported for children receiving early childhood intervention (ECI) services.
 - Date must come **before child's 3rd birthday**.
 - Memorandum of Understanding (MOU) between ECI providers and LEAs has been updated to where this date **must be supplied** by the ECI provider.
 - Children reported with a date **less than 90 days** before their 3rd birthday will have their compliance calculated through the **SPPI-11** timeline.
 - CHF0-100-002 *SPPI-12 Student Compliance Report* – review the 'Calc Days Til 3rd Bday Count' column on this report.
 - These children will show up on both the CHF0-100-001 and CHF0-100-002 reports and will also be counted in both the CHF0-100-003 and CHF0-100-004 reports.

23

REMINDERS

- **CONSENT-TO-EVALUATION-RECEIVED-DATE (E1738)**
 - Replaced PARENTAL-CONSENT-DATE
 - Guidance changes
 - Report the **actual date** the written consent was received by the LEA, not the next instructional date as was the guidance with the previous data element.
 - No longer need to back-date consent received during the summer months.
- **ECI-TRANSITION-CONFERENCE-DATE (E1713)**
 - Only reported for children receiving ECI services.
 - **No longer mandatory.** This does not need to be reported if the parent opted out of the transition conference.

CHFO-100-005 SPPI-11 Calculations Report

- The report is available to LEA users in **CSV** format only.
- It displays all the intermediate **calculations** performed by the Core application that go into determining the SPPI-11 compliance.
- Users can utilize the report in conjunction with the SPPI-11 compliance flowchart for troubleshooting student non-compliance issues.

26

REMINDERS

- Important columns to pay attention to:
 - *Calc Days After Consent Count* – indicates the number of instructional days remaining in the school year starting on the parental consent date. This is the first step in determining the compliance timeframe.
 - *Calc Init Eval Cutoff Date* – indicates the calculated compliance cutoff date (i.e., due date) for the initial evaluation. An evaluation reported after this date results in non-compliance.
 - *Calc Day 30 After Init Eval Date* – indicates the 30th calendar date after the initial evaluation. Under most scenarios, this acts as the cutoff date for the eligibility determination (unless it falls during the summer).

27

CURRENT KNOWN ISSUES

- The following issues are tentatively scheduled to be resolved in the software release on **March 22, 2024**:
 - For the SPPI-11 Eligibility Determination compliance calculation, the system is calculating a compliance value of 'Y' when ELIGIBILITY-DELAY-REASON code '05' is reported. This code is no longer considered an acceptable delay reason for SPPI-11 Eligibility Determination compliance calculations. LEAs who have reported this value will need to re-promote their data to Child Find once a fix has been released.
 - The following validation rules are misfiring when ELIGIBILITY-DELAY-REASON code '05' is reported.
 - 41163-0089
 - 41163-0090

28

CURRENT KNOWN ISSUES

- The following issue will be resolved with an upcoming software release:
 - For the CHF0-100-004 *SPPI-12 Aggregate Report*, SPPI-12 Measurement Items (b), (c), and (d) do not include checks for ELIGIBILITY-DELAY-REASON codes. This caused the report to display incorrect counts for these three items, as well as an inaccurate measure of the 'Percent of Children Determined Eligible Who Have an IEP Developed and Implemented by 3rd Birthday' and 'Number of Children Determined Not in Compliance for SPPI-12'.

FREQUENTLY ASKED QUESTIONS

What date should the LEA report for the CONSENT-TO-EVALUATION-RECEIVED-DATE (E1738) if it occurs on the last day of school or over the summer before the new school year begins?

With the removal of PARENTAL-CONSENT-DATE and addition of CONSENT-TO-EVALUATION-RECEIVED-DATE in the 2023-2024 school year, LEAs should now report the date that the written consent was received. This is unlike the guidance from previous years where the next instructional date was to be reported. Additionally, there are no longer any workarounds needed when the date occurs on the last day of school or over the summer.

31

FREQUENTLY ASKED QUESTIONS

Which days should be counted for a student for the STUDENT-ABSENCES-WITHIN-TIMEFRAME (E1711) data element?

A student is considered absent for the school day if the student is not in attendance at the school's official attendance taking time or at the alternate attendance taking time set for that student. A student is considered in attendance if the student is off campus participating in an activity that is approved by the school board and is under the direction of a professional staff member of the school district, or an adjunct staff member who has a minimum of a bachelor's degree and is eligible for participation in the Teacher Retirement System of Texas.

32

FREQUENTLY ASKED QUESTIONS

I have a child to report for SPPI-12. The ECI provider is not supplying my LEA with the date that the child began receiving ECI services. What should be reported for the child’s ORIGINAL-ECI-SERVICES-DATE (E1737)?

LEAs should make every effort to obtain the exact date the child began receiving ECI services. The Memorandum of Understanding (MOU) with the ECI provider(s) has been updated to where they must supply this date to an LEA reporting a child for the Child Find data collection. In the event the exact date cannot be obtained, LEAs may use a “proxy” date. For example, LEAs could report the same date being reported for the ECI-NOTIFICATION-DATE (E1712). As always, LEAs should maintain local documentation in this scenario.

FREQUENTLY ASKED QUESTIONS

When a student is being reported with two DISABILITY (E1220) codes ('Deaf And Hard Of Hearing' and 'Developmental Delay'), does ELIGIBILITY-DATE (E1723) need to be reported for both disabilities? What about the EFFECTIVE-DATE (E1632)??

ELIGIBILITY-DATE (E1723) shall only be reported with the 'Deaf And Hard Of Hearing' disability code. It does not need to be reported with 'Developmental Delay'.

EFFECTIVE-DATE (E1632) will need to be reported for both disabilities. However, this date is not promoted to the SELA data mart for either. It is only required to load the data to the ODS.
