ASCENDER Updates

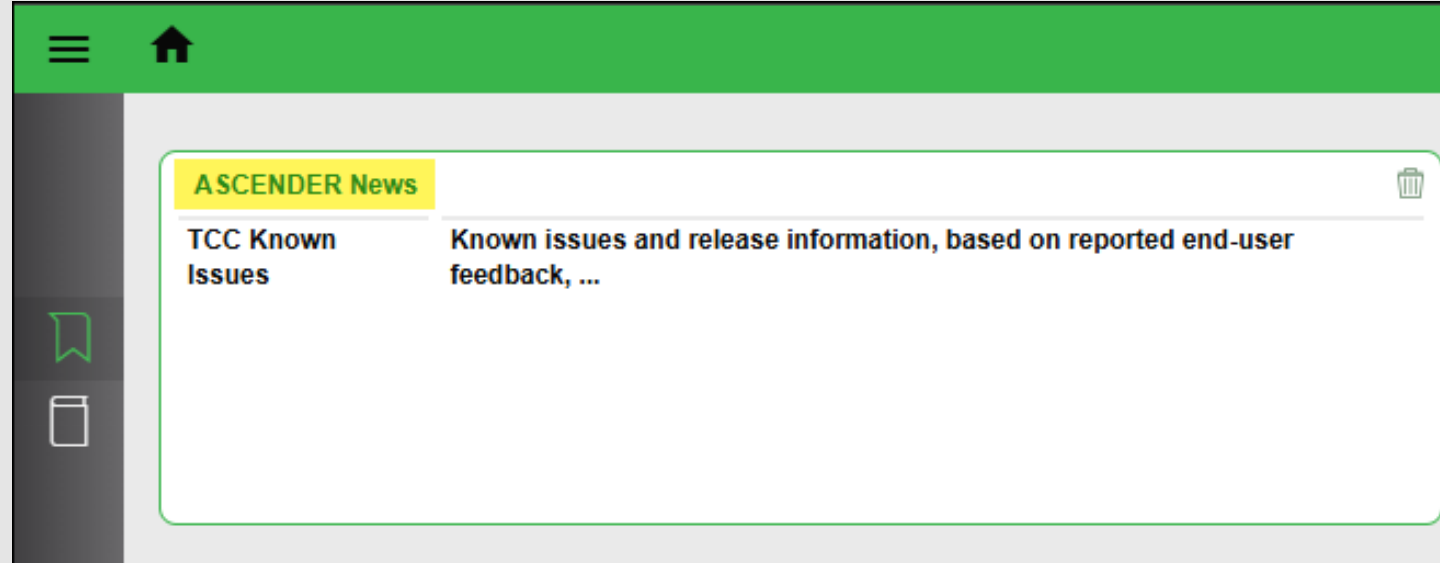

ASCENDER Releases:

Recent Update 11.0306 (installed on 11/18/25)

ASCENDER Dashboard

- Updated the program so **TCC Known Issues** news displays on the ASCENDER dashboard.

ASCENDER Reports

- **Business Reports**

- To ensure data integrity and system performance, the TCC has disabled the **Preview** button functionality for certain reports. This change means that the Preview option will no longer be available when generating certain reports. **A limited number of business reports will continue to include the Preview button**, as they do not offer CSV or PDF export options. At this time, there is not an estimated date for when this button may possibly be re-enabled.
- [IMS Business Announcement](#) (sent on 10/24/25)

District Administration

- **District Administration > Tables > District Information > Fall Finance TSDS Data**

- Corrected the following known issue that was previously identified in 11.0210: A known issue may cause -6 errors during TSDS extraction if responsibility records are submitted and then changes are made to the **Campus, Staff Classification, and/or Begin Date**.
- Modified the program so that when changes are made to the following key fields in a responsibility record, the original record is deleted and a new record is inserted to reflect the change. This will assist the with data management required for TSDS staging tables.
 - **Campus**
 - **Role ID**
 - **Begin Date**

Spotlight

Latest Updates Regarding Fall PEIMS

Latest on Employment Dates

Personnel > Maintenance > Employment Info

- **Termination Dates** should always be reported and captured. If an employee leaves and returns, there is a **Rehire Date** field that can recapture the employee's reemployment with the district. The system is set to capture these details.
- Deleting the **Termination Date** affects the TSDS reporting source and staging tables. It is important that **Termination Dates** and **Reasons** remain current and up-to-date so that the system is capturing and reporting the correct data. If deleted, this could create potential orphan records.
- At this time, we do not recommend retroactively adding Termination Dates to employees who "should" have one per this guidance.
- Note: Payroll warnings do not prevent districts from submitting and processing payroll.

Latest on Employment Dates

Personnel > Maintenance > Employment Info

- Updated information has been added to Help

As you are making changes to employment dates, review the following examples for additional guidance on terminations, rehires, and change in positions:

Example 1: Termination Date

Employee A works for ABC LEA and leaves employment on 05/30/2025. Therefore, a termination date of 05/30/2025 must be entered. Later, Employee A returns to ABC LEA with a new start date of 08/12/2025. The original **Termination Date** of 05/30/2025 remains in place and the new start date should be entered in the **Rehire Date** field.

Example 2: Change in Position

Employee B is hired by ABC LEA as a paraprofessional with a hire date of 08/30/2025. Later, they obtain a teaching certificate and move into a teaching position starting 01/06/2026. In this case, the paraprofessional position should be ended and paid off on the Job Info record through 01/05/2026. The new teaching position should then be added with a beginning contract date of 01/06/2026.

Note: The employee should not have a termination date or a rehire date since this is a change in position and not a separation from employment.

Budget and Payroll Extracts

Latest on Budget and Payroll Updates – Closing Period 10

- There is a known issue where TSDS extracts are not capturing any changes to the budget data or the payroll distribution records made directly in ASCENDER.
- TCC has replicated the issue and is working on a solution for this.
- If your district has not yet closed accounting period 10, we recommend leaving it open until the fix is deployed. Once the correction is applied, the data will re-extract and should update the reported data. *(Estimated release is currently scheduled for November 20th.)*
- **NOTE:** If your district has already closed accounting period 10, changes will need to be made manually on the **Fall Finance TSDS Data** screen in District Administration. Districts can do this immediately and do not have to wait for the fix to use this option.

Closing Period 10

When running the **End of Month Closing** process for accounting period 10 in Finance, the message displayed will be updated to include additional clarification about closing period 10. The message will now read as follows:

- *The budget and payroll data are extracted nightly along with the other TSDS extracts until period 10 is closed. After period 10 closes, the data extraction stops. The Fall Finance TSDS Data tab in District Administration becomes available for editing the day after period 10 closes. The user can then begin making corrections to the budget and payroll data on the Fall Finance TSDS Data tab.*

Other Known Issues

- **Percent Day Employed Effective Date**

Personnel > Maintenance > Employment Info

- This is currently showing up as blank. This is a display issue – the extracts and sends this data are fine.

- **TSDS Days Employed Set**

Personnel > Maintenance > TSDS Days Employed Set

- If employees are currently showing **0** for the **# of Days Employed** in the *Personnel > Maintenance > TSDS Days Employed Set* screen, please submit a ticket on this issue.
- TCC is aware of this issue and is working towards a solution.

Updated TSDS Guides

New ASCENDER guides are available that provide additional guidance on how you should add a new employee and how to process a termination for an employee:

- [TSDS Best Practices for New Employee Records](#)
- [TSDS Best Practices for Terminated Employee Records](#)

Quick Tips for Fall PEIMS

- **Be sure to update changes in Employee Status!**
- It is important to verify the **Employee Status** field in Personnel for all employees, especially when someone changes jobs and it can change if that person should or shouldn't report as of Snapshot Date.
- Important factors that affect if an employee reports for Fall PEIMS:
 - **Employee Status** (*1-5 or A will report*)
 - **Termination Date** (*if later than Employment Date or Re-Employment Date, employee will not report*)
 - **Pay Type** (*1-3 will report*)
- If an employee is changing positions, it is best to provide an updated **End Date** to the job that ended and add an additional row for the new job in *Payroll > Maintenance > Staff Job/Pay Data > Job Info*.
