TEKS Resource System for Administrators

11/12/18 SESSION 683671

Are you an administrator who is new to TEKS Resource System? Have you been a TEKS RS District, but need some refreshers? This session is designed to help administrators understand the components and connections among the curriculum documents in TEKS Resource System. The goal of the session is for administrators to leave feeling more comfortable with the content and how the documents can add to their own toolbox in supporting teachers with curriculum.

Curriculum & Instruction District Advisory

11/12/18 SESSION 683672

This meeting is designed to provide current up-to-date information for districts on what is happening with curriculum. During this meeting, we will have celebrations as well as discuss issues districts are facing within curriculum and work toward solutions. It is the goal that everyone walk away with something to take back and share or implement within their district after each meeting.

Math Students' Questions

11/14/18

SESSION 670595

Teach students to ask their own questions. All students should and can learn to formulate their own questions. All educators can easily teach the skill as part of their regular practice. We will look at a clear step-by-step process for teaching a sophisticated thinking skill to all learners. All grade levels.

We Need to Move it! Move It!

Moving and Learning in Secondary Math

12/14/18

SESSION 674879

This session takes secondary math concepts and blends it with motions and movements. Brain breaks are great but we can do more! We will race to achievement by moving and learning simultaneously. Why ignore motion when it comes to learning? The brain benefits from aerobic activity. There is a brain-body connection that is often ignored in our classroom. Learning doesn't occur from the neck up but from the feet up! From gestures to modeling with movement, this session will give ideas to get your students up, moving, growing dendrites, and LEARNING...and maybe having a little fun. Dress appropriately for moving.

Engage Students in Science Using the Ozobots

11/14/18

SESSION 674866

This session is for all teachers of science and STEM! Or any educator who wants to spice up their class with current technology. Come one come all to explore how EASY ozobots can charm your kids into learning core content. Robots are cool and ozobots are tiny robots that make learning fun. Come cruise through fundamental activities to master your ozobot and apply its programmable movements to your content.

Student-Centered Science and Math Classrooms 2.0: Using Augmented Reality and other Apps to Transform your Classroom!

1/17/19

SESSION 682467

Move beyond traditional word walls, posters and foldables with easy-to-implement technology. Let today's technology make collaboration and sharing take on a whole new form. Participants will explore multiple platforms to enhance how students communicate their understanding of the content using augmented reality and other apps.

ELAR / Elementary

Leaders in Literacy

11/29/18 SESSION 667006

Calling all Leaders in Literacy...Are you an ELAR Director, Curriculum Coordinator, department chair or literacy leader in your district? Leaders in Literacy meetings provide an opportunity for networking among district and campus ELAR contacts. We will share information on current issues and best practices in ELAR and provide TEA updates regarding literacy instruction.

Trait-Based Writing for Grades 3-5

Growth Mindset in the K-5 ELA/R Classroom

12/11/18 SESSION 674548

Conferring with Readers Collaborative Book Study

1/9 & 1/23/19 SESSION 683096

Learning is inherently social. We know the benefits of taking time to engage with colleagues to clarify and enrich the craft of teaching. Through this collaborative book study, we will see how to confer well with readers and why a few moments talking with students every week can put them on the path to becoming better, more independent readers.

11/8/18 SESSION 671052

Comprehension and Digital Texts

12/6/18 SESSION 683152

Digital literacy and multimodal texts involve issues with access, precision of understanding, and student preference. But do we know - explicitly - how to teach students to read digital texts in personal reading situations and in testing environments. This session will not be a classic presentation, but a collaborative exploration and creation of solutions for classroom instruction.

Fluent Readers in 6-12: Solutions and Strategies

1/9/19 SESSION 683155

Once you identify that students are not on grade level, how do you bridge the gaps? Let's analyze the data, pinpoint student needs, and create classroom routines and lessons to respond to student needs.

The American History Challenge: Helping Teach the Tougher TEKS (8th Grade)

1/16-17/19 SESSION 673821

In this two-day, 12-hour institute, the Law-Related Education (LRE) team identified TEKS that are challenging to American History students such as Reconstruction, Civil Disobedience and Reform Movements, Constitutional Changes, and Foreign Policies of the Early Presidents. Working with scholars and consultants, participants will learn and receive valuable methods and resources. Content presentations are reinforced with practical activities which will be made available to participants on a flash drive. This institute is designed to target low performing 8th grade TEKS and to complement existing curriculum.
